

Metal Prox is a proximity reader with a polycarbonate front, available in a metal housing of 6 different colours. It is elegant, slim and compact and its design is suitable for inside and outside use. Metal Prox is compatible with most access controllers and Time and Attendance systems. It incorporates industry standard protocols such as Wiegand 26 to 40bit, Clock & Data as well as Codix.

Features

- Multi protocol compact slave Proximity reader
- Aluminium die-casted housing
- Compatible with WIEGAND 26-40bit or CLOCK & DATA or CODIX protocols.
- Read range of 3cm distance
- Reads EM4002 compatible tags
- 125 kHz operating frequency
- Tricolor LEDs (orange, red and green)
- Audible and visual feedback
- 9-12V DC
- Current consumption: max. 50mA
- Resin potted electronics
- Tamper protection
- Dustproof and waterproof (IP65)
- Operating Temperature: -20°C to +50°C
- Colours: Silver, Grey, Red, Blue, Green, White
